Profile

I'm a passionate and skilled front-end developer specializing in React.js. With a strong foundation in building responsive, dynamic web applications, I take pride in creating user-friendly interfaces that provide seamless user experiences. My expertise lies in leveraging the power of React to build efficient, scalable, and maintainable code.

Skills

HTML,CSS (Tailwind CSS,Bootstrap)

Javascript (React javascript)

Java (J2EE,J2SE,core java)

Deployment (Github Pages , Netlify , Vercel)

Database (MYSQL, SQL Server)

GIT (GitHub,GitLab)

Miscellaneous (C/ C++/Java,javascript)

Interpersonal (Critical thinking,problem solving)

Projects

Portfolio website

My personal portfolio website to show my skills in front end design and development using ReactJS and Tailwind having responsiveness. (<https://z-portfolio-six.vercel.app/>)

Expense Tracker

The Expense Tracker Application is a full-stack web application developed using React.js for the frontend, Supabase for the database, and React Query and Redux for state management. The application allows users to efficiently manage their expenses through a userfriendly interface

Movie Website

The Movie Website is a dynamic and interactive platform designed to provide users with a latest movie browsing and exploration experience

Festiva Live

Festava Live is interactive website designed to provide users with information about upcoming music concerts🎵 featuring fake artists. The website utilizes HTML, CSS, Bootstrap, and JavaScript to deliver a responsive and user-friendly experience.
